An Integrated IT & Business Solution

INFORMATION TECHNOLOGY

The world is constantly changing in every way and we need to be adaptive. Changes are inevitable and we are here to create and innovate to face changes. All the options are properly reviewed and we select the best one as an integrated solution for all your business.

Information Technology as one of our core business is a reflection on how we adapt to changes. All of our works are based on actual needs and through full observation on what the world has become. We will find the answers for all the changes and build a new way to compromise it.

business overview

Our team at Integra Padma Mandiri are equipped with highly developed skillsets over decades of experience not only in information technology, but also in business processes across a range of industry sectors. This business experience makes us uniquely positioned to offer solutions promising greater operational efficiency, productivity gains and cost savings for each of our clients, regardless of their industry.

our vision

To be the nation leader
in information
technology
industry

our mission

To provide whole
IT services to all
of our customers and
prioritizing the success of
our customers.

Mission Statement

We aspire to build an
extensive network and
strategic alliances
around the nation to
provide services that
are innovative, professional,
and efficient

our solutions

We provide customized IT solutions to help you reach your organization's objectives. We worked with leading technology vendors to provide the best solutions for our clients locally. Our range of services include: hardware and software procurement, infrastructure building, data center infrastructure, networking infrastructure, application development, IT security solutions, and more.

our people

Over the years, we have built a team of experienced and qualified engineers. We have a global presence coupled with a local edge. Our engineers have the experience to work in a variety projects and conditions around the nation and the world.

our project experience

One of the projects we are proud to have build and managed was Maritime Surveillance System for Polairud (Indonesian Sea and Air Police). This project is truly captured our spirit of works. We provide solutions for Polairud to simplified their job in surveillance of the sea traffic in Indonesian territory.
