OUR LOGISTICS SOLUTIONS

02

PT. Integra
Padma Mandiri

Indonesia is a country with an abundance of natural resources. Over 17,000 islands spreading between the Pacific and Indian ocean, a multitude of amazing landscapes and possibilities.

For the past 5 years, Indonesian government has been building roads and bridges to the outermost, remote, and left-behind area.

This shows that logistics is highly crucial for the Indonesian government, the people, and across the private sector.

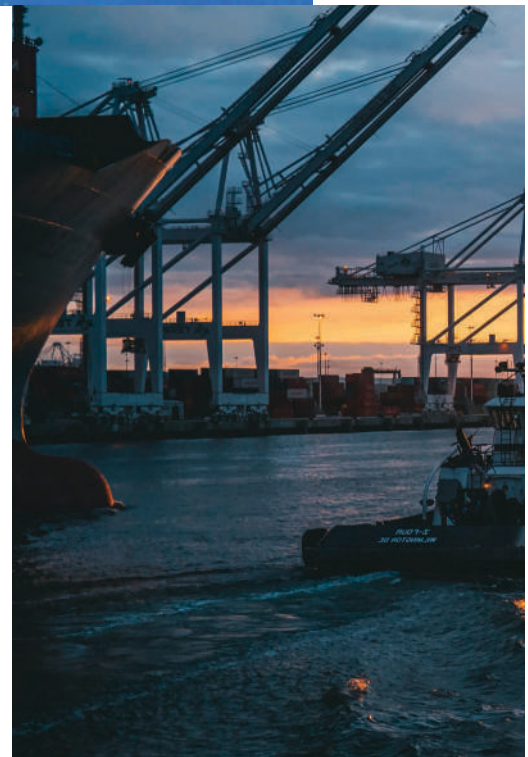

And that's where we come in.

PT. Integra Padma Mandiri aims to **be fast, consistent, and efficient** while delivering our logistic solutions to our clients.

business overview

Our expertise **encompasses** doing end to end logistics equipment and services. We are handling items ranging from small to big such as Power Generation Industry, Oil and Gas refinery, Petrochemical, Mining Metallurgy, Cement Plant, Construction Material Machinery, Manufacturing, various power plant project, and freight forwarding services.

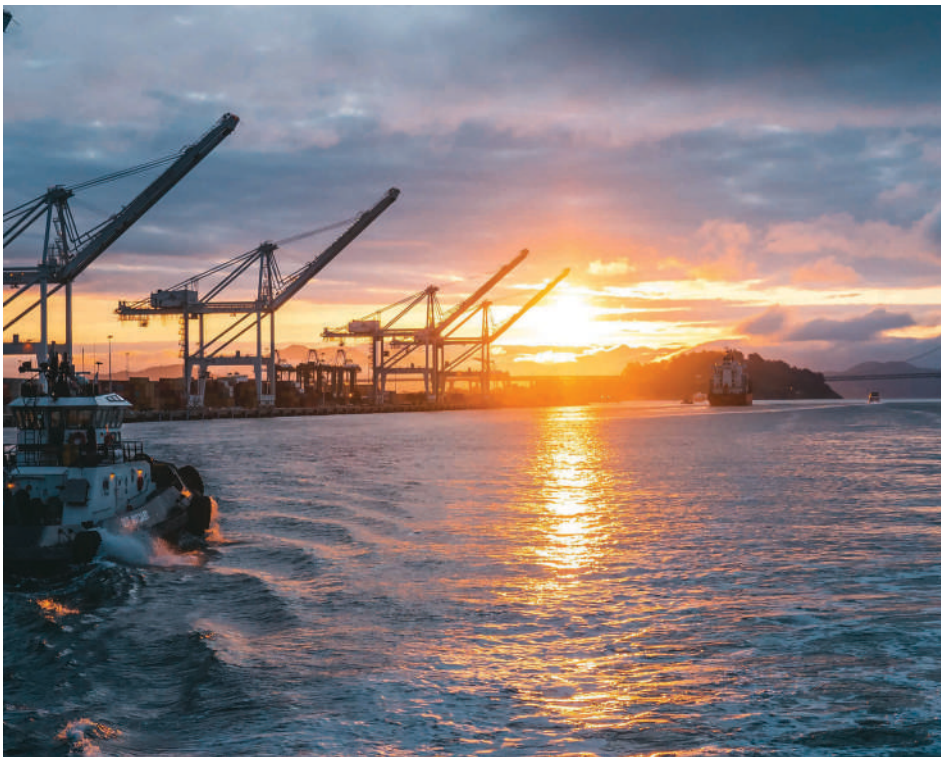

our vision

To be a global and leading end-to-end logistics solutions provider.

our mission

To provide exceptional logistics services to all of our customers and prioritizing the success of our customers.

Mission Statement

As your best logistics partner, we aspire to build an extensive network and strategic alliances around the world to provide services that are innovative, professional, and efficient.

our solutions

1. Ocean Shipping Service

Padma Logistics has a world-class team for sea freight transportation with years of experience.

Our team had advanced communications process with vendors, providing the schedule, completing all the paperwork, choosing the most efficient way of sea transportation with the detailed explanation of booking and forwarding service such as port handling, sea transport arrangement, shipping agency, import and export customs clearance.

2. Air Freight Charter

We are members of the biggest alliances in the world: WCA (World Cargo Alliance) and WWPC (Worldwide Project Consortium).

These alliances allow us to be in partnership with the best and most reliable freight forwarders and companies in the world.

3. Shipping and Forwarding Agency

We have joint ventures and agreements with more than 700 agents around the world from 140 countries.

This allow us to handle shipping and forwarding across countries, from West to East.

4. Barge and LCT Transportation

We were established in Indonesia which is known as the biggest archipelago in the world, this provides us the advantage of gaining experiences in multiple seas and rivers.

We are confident to arrange ship to ship, ship to the barge, ship to LCT or LCT/Barge to ship loading, and unloading cargo for our partners.

5. Customs Broker

Our team is listed as an export and import customs broker in the Indonesian Customs Department.

Our team is experienced for handling major projects such as: Government Crash Program for coal-fired power plant 10,000 MW phase I (PLTU Pacitan, PLTU Lampung, PLTU Sulsel, PLTGU Semberah, PLTGU Indralaya) and Preparing for Phase II, Australian mining Project of Sino Iron Project.

This makes us highly confident in giving our partners the best solution.

6. Land Transportation, Heavy Lift, and Over Dimension Cargo

We have a strong team and inland partner transportations with more than 300-ton cargo per piece.

We also have delivered more than 190,000 freight tons cargo by land in the past 3 years.

Our heavy vehicles are always ready to give our customers what they need. We provide special equipments such as a flatbed trailer, low bed trailer, hydraulic jack, multi-axes trailer, and others.

our solutions

7. Project Cargo Specialist

Our project logistics professionals are experienced in a variety of plant construction and other types of projects, including power plants, chemical, high-tech, and manufacturing plants, oil field projects, pollution, and water control projects, etc.

All delivered through our worldwide network of offices and strategic alliances.

8. Warehouse and Distribution

We offer customers a range of warehousing storage & distribution facilities to choose from.

Warehouses may include those situated in Free-Trade-Zone, public & contracted warehouses for short/long term storage, according to customer's varying requirements.

Some of the services provided including

- Loading and Unloading of containerized cargo
- Value-added services such as repacking/ relabeling cargo for re-export purpose as well
- Door-to-door delivery
- Hazardous/ Non-hazardous cargo storage
- Capability of handling refrigerated cargo

9. Procurement of Goods

As an end-to-end service provider, we have successfully handled procurement of goods up to very large quantities to solve our clients' purchasing needs.

10. IT Solutions

We provide customized IT solutions to help you reach your organization's objectives. We worked with leading global technology vendors to provide the best solutions for our clients locally. Our range of services include: hardware and software procurement, infrastructure building, data center infrastructure, networking infrastructure, application development, IT security solutions, and more.

11. Supply Chain Management

We have assumed the challenging role of the supply chain manager for some of our major furniture/handicraft/household clients.

Typically, we work together with our local strategic partners who have country specific market knowledge. Being a neutral 3rd party logistics, we recommend the “best in class” warehouses and local trucking agents in the respective countries, which follows our practice of working with best-in-class suppliers in areas in/outside of our core supply chain management competencies.

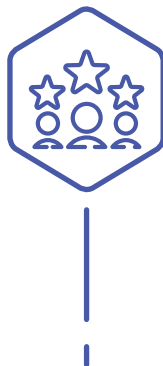

Our clients believe that Supply Chain Management is the key factor in achieving a competitive market position in an ever more demanding business environment. As a key part of our client's supply chain, it we perform the whole spectrum of logistics services for them. With online system links between our company and our strategic partner, our clients can track the latest real-time status of their orders online through the client's own system.

our people

Over the years, we have built a team of experienced and qualified staffs. We have a global presence coupled with a local edge, our staffs have the experience to work in a variety of practical and cultural conditions around the world.

Through ongoing cooperation with local offices, agents, and authorities, we are always up-to-date with the latest and most innovative solutions out there.

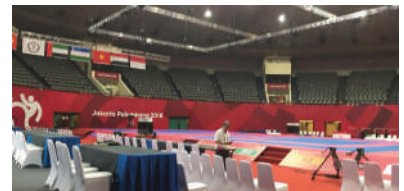

our project experience

One of the projects we are proud to have managed was the 2018 Asian Games. We successfully managed crucial task of obtaining custom clearance for items needed for the Games, such as sports equipment, overlay, etc. We also successfully managed the warehousing solutions for all equipment. And finally, we were responsible to distribute items and equipment to and from the event.
